ISHAN RASHMIKA

UNITY DEVELOPER & 3D ARTIST

ishanrashmika61@gmail.com | www.linkedin.com/in/ishan-rashmika-b65932298 | https://ishan-rashmika.itch.io/ | https://wa.me/94705961731

// PROFILE

Passionate Game Developer and 3D Artist with hands-on experience building 15+ cross-platform projects spanning Unity 3D/2D games, Blender 3D art, desktop & mobile applications, web platforms, and UI/UX design. Specializes in Unity C# gameplay systems, Collider physics, PBR Texturing, Animation and object pooling architectures. Bachelor of ICT (Hons.) student at University of Sri Jayewardenepura.

// TECHNICAL SKILLS

Game Engines: Unity 3D/2D (URP), Unity 6.3
Languages: C#, Python, Kotlin, JavaScript, SQL, HTML/CSS
Game Systems: Object Pooling, Collider Physics

App Dev: Android Studio, Kotlin, Python (LLM/Agents), WordPress
3D & Art: Blender (Hard-Surface, Low-Poly, PBR Texturing), Figma
Tools: Git, GitHub, VS Code, Unity Editor, Blender, Figma, Android Studio…

// EDUCATION

Bachelor of ICT (Honours)
University of Sri Jayewardenepura (USJ) | Faculty of Technology | Specialty: Multimedia | Core Engine: Unity 3D | Current GPA : 3.81

// CERTIFICATIONS

Google — UX Design Professional Certificate
Canva Coursera - Canva Media Visuals Certificate
WordPress Coursera - Build website with WordPress Certificate
University of Michigan — AR & Extended Reality Certificate

// PROJECTS

Unity Games

Farm Shoot *(Unity 2D)* · A shooting game where you defend against waves of automatic enemies.
2D Space Shooter *(Unity 2D)* · A space shooter with reusable bullets, different enemy behaviors with farm backgrounds.
Mini City *(Unity 3D)* · Open city explorer with Collider vehicle physics(*In Development*).
Sky Fighter *(Unity 2D)* · A flight game where you guide a plane through gaps in walls and avoid crashing.
Solar System *(Unity 6 URP)* · A 3D simulation of planets moving around the Sun with mouse interaction.
Store Simulation 3D *(Unity 3D)* · A shopping simulation where you pick drinks and pay at the cashier include pathfinding & inventory systems.

Blender 3D Art

Sci-Fi Corridor *(Blender)* · Modular hard-surface environment with PBR materials & HDRI lighting.
Fantasy Village *(Blender)* · High-poly environment art pack with PBR texture baking & HDRI lighting.
Fighter Ship *(Blender)* · Sci-fi hard-surface spacecraft with detailed modeling and textured surfaces.

Applications

Task Tracker *(Desktop App)* · Task tracking app with a timer and activity summaries progress and manage daily work.
Xian Desktop AI *(Python/LLM)* · AA desktop AI assistant that uses a local AI model to automate day tasks on your computer.
Gym Pulse *(Android/Kotlin)* · A fitness app for recording workouts and tracking progress with easy-to-read charts.
Travel Track *(Android/Kotlin)* · A group travel app for sharing locations without internet during outdoor group trips.

Websites

ICT GPA Calculator *(Web App)* · University result & GPA calculation system for ICT undergraduates.
Play_Chat *(In Development)* · GA live chat platform where users earn points and play tasks to unlock messages.
WordPress Portfolio *(WordPress)* · Professional UI/UX design showcase built on WordPress with custom theme.

UI / UX Design

CeylonTour *(Figma)* · A travel app design with connected screens, reusable elements, and a clickable preview.
DCS PowerMonitor *(Figma)* · A dashboard design for monitoring power systems through charts and live data displays.
EasyReserve *(Figma)* · A restaurant booking app design with a table selection map and simple booking steps.
EventVision *(Figma)* · An event ticketing app design and a dashboard for event organizers.
FitPulse *(Figma)* · A fitness app design with challenges, daily activity streaks, and a feed for sharing updates.

// EVENTS & ACTIVITIES

CryptX 2.0 Designathon	Organizing Committee Member	Faculty of Technology, USJ
IX 25 Designathon (XR Tech)	Top 10 Finalist	IEEE IIT Student Branch
AlgoArena Programming Competition	Participant	IEEE CS & USJ Leo Club
IEEE WIE Coding Sprint	Participant	IEEE WIE Sri Lanka (National)
